BBC (2 February 2024)

The US State Department has approved the potential sale of 31 armed drones, missiles and other equipment to India for nearly \$4bn (£3.14bn).

The MQ-9B Predator drones deal had been announced during PM Narendra Modi's visit to US in June 2023.

In December, it was put on hold by a Senate committee pending investigation into an alleged Indian assassination plot on US soil.
