BY EDDY WAX

The next European Parliament looks more pro-Russian and less green than the current one. Could a far-right EU really happen?

Every five years, like clockwork, mainstream politicians freak out about the rise of radicals and populists ahead of the European election.

But then, the danger suddenly seems to dissipate as the traditional center-left and center-right forces that built the European Union forge coalitions that hold more radical parties at bay. Dont bank on it this time.
