
GERMAN ECONOMY IS IN 'TROUBLED WATERS' - MINISTRY

-

22.02.2024

BBC News (21 February 2024)

The German economy is in "troubled waters," according to country's economy minister.

Robert Habeck said the German government's forecast for economic growth for 2024 had been revised down from 1.3% to 0.2%.

This means that Europe's largest economy has effectively stalled - although it has avoided entering a full-blown recession.
