We strongly condemn the baseless anti-Azerbaijan allegations, unilaterally defending Armenia, by the President of the Republic of France, Emmanuel Macron, during a joint press conference with the Prime Minister of Armenia in Paris on 21 February 2024, the Ministry of Foreign Affairs of Azerbaijan said, Trend reports.

As a country, which has never mentioned the rights of Azerbaijanis violated for nearly 30 years, displaced from their territories, and subjected to mass massacres, French sides statement about the rights and security of Armenians left the territories of Azerbaijan at their own will and without any violence, is completely inappropriate.
