EurActiv (15 April 2024)

International donors committed on Monday (15 April) to spend more than  billion in humanitarian support in Sudan   million of which will come from the EU and its member states – and better coordinate efforts to secure a sustainable ceasefire.

The efforts at the International Humanitarian Conference for Sudan in Paris come a year to the day since the start of a civil war that has cost the lives of thousands and threatened millions with famine.

Some 15,000 people have died since the war broke out in April 2023, as rival branches of the countrys army went for an all-out confrontation, especially in the countrys capital, Khartoum.
