The Embassy of Kazakhstan in Bulgaria has organized the forum themed "Transport links between Kazakhstan and Bulgaria", Trend reports.

More than 20 representatives of Bulgarian transport companies took part in the forum.

Ambassador of Kazakhstan to Bulgaria Viktor Temirbayev noted in his speech that the geographical position of Kazakhstan in the center of the Eurasian continent creates favorable conditions for the use of the transport network of the country in the formation of transcontinental routes in directions from East to West and from North to South, including in the context of the development of the Trans-Caspian International Transport Route (TITR, or Middle Corridor).
