The transport and communications complex of Turkmenistan has shown impressive growth in the first seven months of 2024. The overall growth rate of work and services in the sector was 118,1%, which indicates significant progress in the development of the country's transport infrastructure, reports the State News Agency of Turkmenistan.

These data were presented at the next meeting of the Cabinet of Ministers of Turkmenistan by the Director General of the Agency of Transport and Communications M. Chakiyev. According to him, for the period from January to July 2024, the growth rate of cargo transportation reached 103,9%, and passenger transportation – 103,6%.

The growth in the aviation sector especially stands out: the Turkmenhowayollary Agency demonstrated an increase in the volume of services by 153,8%. Other transport agencies also showed positive dynamics:
