North Macedonia's government cannot make any concessions without clear assurances from the European Union regarding EU membership, Prime Minister Hristijan Mickoski of the Republic of North Macedonia said on Monday, quoted by North Macedonia's Media Information Agency.

"As a government we cant enter a naive process where we only make concessions without having clear guarantees as a country that we will become a part of the European family. Since no one can guarantee us anything, we cant be as optimistic as we would like to be and thats why we will lead the two processes for EU membership and completing our domestic tasks in parallel, but we are ready for talks," Mickoski said.
