Giorgia Meloni has identified a new archenemy.

Italy's prime minister has turned her fire on the country's judiciary, even as her critics decry dangerous political attacks reminiscent of Hungarian strongman Viktor Orbán.

While the Italian leader, at the head of Rome's most right-wing government since Benito Mussolini's fascist regime, has gained international credibility with her moderate rhetoric and support for Ukraine in its war against Russia, at home she has pursued a harsher agenda, moving to tighten her grip on the country's institutions.
