North Korea's status as a nuclear weapons state can never be reversed, no matter how much the United States and its Asian allies demand it, state media reported on April 9, citing the powerful sister of the country's supreme leader.

The comments, which state news agency KCNA said were issued on April 8, were likely a response to a joint statement made by the foreign ministers of South Korea, Japan and the US on the sidelines of a Nato meeting last week.

The three foreign ministers reaffirmed their commitment to the complete denuclearisation of North Korea, according to the joint statement.
