CNA (21 May 2025)

China is "seriously concerned" about the US Golden Dome missile defence shield project and urged Washington to abandon its development, a foreign ministry spokesperson said on Wednesday (May 21).

US President Donald Trump said on Tuesday he had selected a design for the US\$175-billion project and named a Space Force general to head the ambitious programme aimed at blocking threats from China and Russia.

General Michael Guetlein, who will be responsible for overseeing Golden Dome's progress, currently serves as the vice chief of space operations.
