Armenias vision is clear: normalization of relations with two of its neighbors with full respect of each others sovereignty and territorial integrity, Armenian Foreign Minister Ararat Mirzoyan said in his opening remarks at the Yerevan Dialogue international forum.

Armenia clearly identified the path forward: to overcome confrontation and promote cooperation, foster better connectivity and drive sustainable economic growth, enhance adaptability and innovation, strengthen democracy and the rule of law, focusing on the development of human capital. Creating such an environment for our citizens is a strategic priority for Armenia, the Foreign Minister said.

At the same time, we believe the opportunities ahead of us lie in the restoration of respect for international law, reinforcing the synergy between the moral compass □ commitment to the core values, and in the ability to make bold decisions, he added.
