MassisPost (26 June 2025)

The Armenian government is beginning the process of assuming control over the Electric Networks of Armenia (ENA) company.

Prime Minister Nikol Pashinyan made the announcement during a government session.

It is clear that the state must very quickly take over the management of the Electric Networks of Armenia and implement the next steps aimed at nationalization and improving the company's efficiency. We need to carry this out swiftly and effectively, said Pashinyan.
