Türkiye Today (1 December 2025)

Greek Defense Minister Nikos Dendias announced a significant shift in Greeces defense doctrine, saying Athens will deploy missile systems across hundreds of Aegean islands.

Speaking at an event in Athens titled Greece in the World Perspective, Dendias accused Türkiye of being the greatest threat to Greece despite both countries being NATO members since 1952.

*Greece to deploy mobile missile batteries across Aegean islands*

Dendias said the traditional doctrine, where land is protected by the army, the sea by the navy, and airspace by fighter jets, will be replaced.
