
KAZAKHSTAN TO DOUBLE ITS OIL REFINING CAPACITY IN 15 YEARS

- 02.12.2025

Kazinform News Agency (2 December 2025)

Arailym Temirgaliyeva

At todays Government meeting, Minister of Energy Yerlan Akkenzhenov announced large-scale plans for the development of the countrys oil refining sector, Qazinform News Agency reports.

According to him, in 2024 the countrys oil refining output made 17.9 million tons, and the plan for the current year remains at the same level.

The Minister noted that today the countrys oil refineries stand out for a high level of digitalization, with the application of American and Japanese automated process control systems - Honeywell and Yokogawa.
