Chinese Foreign Minister Wang Yi on Tuesday urged against the spread of Afghanistan-Pakistan tensions.

The most urgent task is to prevent the further escalation of the conflict and return to the negotiating table as soon as possible, Wang told Pakistani Foreign Minister Ishaq Dar during a phone call, according to a readout from China's Foreign Ministry.

China firmly supports Pakistan's fight against terrorism and hopes that Pakistan will continue to take all possible measures to ensure the safety of Chinese personnel, projects, and institutions in Pakistan, he added.
