
KAZAKHSTAN RATIFIES 'GREEN CORRIDOR' STRATEGIC ENERGY PACT

- 13.03.2026

Trend News Agency (13 March 2026)

On 11 March 2026, deputies of the Mazhilis of Kazakhstan ratified the Strategic Partnership Agreement on green energy production and transmission between Kazakhstan, Azerbaijan, and Uzbekistan. The document has been forwarded to the Senate for consideration.

Erlan Akkenzhenov, Kazakhstans Minister of Energy, noted that the agreement was signed on 13 November 2024, in Baku during COP29. It aims to optimize renewable energy potential, expand clean electricity trade [] green ammonia and hydrogen [] increase exports to European markets.

A key component of the project is the installation of a high-voltage direct current (HVDC) subsea cable along the Caspian Sea floor. This will enable the transmission of green electricity from Kazakhstan and Uzbekistan to Azerbaijan and onward to Europe via the Black Sea energy project.
