Turkmenistans national leader Gurbanguly Berdimuhamedov has noted the importance of joint projects with China to develop the countrys Galkynysh gas field as he met with President Xi Jinping in Beijing.

According to a statement released Thursday by the Turkmen Foreign Ministry on the meeting held a day earlier, Berdimuhamedov said that the conditions for the further development and strengthening of the partnership between Ashgabat and Beijing in the international arena have been created through the consistent efforts of both parties.

Berdimuhamedov, the chairman of the People's Council, said that Turkmenistan supports and will continue to support China's efforts to advance international initiatives within the UN, emphasizing the importance of its global initiatives related to various issues, including security.
