The scope of financial assistance provided by the European Union to Armenia, as well as the progress of its implementation, was discussed at the National Assembly of Armenia.

During a session of the Standing Committee on European Integration, MP Armen Gevorgyan from the Armenia faction recalled that in recent years, approximately 11 billion in support has been announced through various platforms. This includes a 10 billion Economic and Investment Plan, a €270 million program, and a recently announced additional €140 million.

The MP raised the question of how much of these funds have actually reached Armenia and how they have impacted the countrys economy.
