ArmenPress (29 April 2026)

Armenian Foreign Minister Ararat Mirzoyan and his French counterpart Jean-Noël Barrot inaugurated the new building of Armenias embassy in Paris.

During the ceremony, FM Mirzoyan raised the Armenian flag, the national anthems of both countries were performed by the French Republican Guard Orchestra, and the embassy was officially inaugurated following a ribbon-cutting ceremony.

This day is significant not only for strengthening Armenias diplomatic presence, but also in terms of the increasingly strong friendship between Armenia and France ☐☐ friendship with a rich history, anchored in our shared values of freedom, democracy, and solidarity, the best expression of which is your large and distinguished presence here today.
