The Republic of Armenia has overcome and is managing all regional security threats, Prime Minister Nikol Pashinyan has said.

I officially declare that the Republic of Armenia has overcome and is managing all regional security threats. And the only threat that may arise is the activity of the three-headed war party and their affiliates, Pashinyan said in parliament, referring to the Strong Armenia alliance, the Armenia alliance, and the Prosperous Armenia party.

Pashinyan emphasized that peace with Azerbaijan has been built on the principle of mutual recognition of territorial integrity based on the Almaty Declaration, as agreed by Yerevan and Baku.
