
ARMENIA: EU LAUNCHES PARTNERSHIP MISSION TO SUPPORT RESILIENCE AGAINST EVOLVING HYBRID THREATS

-

14.07.2026

EU Neighbours East (13 July 2026)

The Council of the European Union today launched the EU Partnership Mission in Armenia (EUPM Armenia) under the Common Security and Defence Policy (CSDP).

Formally established on 21 April 2026, the mission will support Armenias capacity to address hybrid challenges, including cyber threats, foreign information manipulation and interference (FIMI) and illicit financial flows. Specifically, the mission will provide strategic advice, technical expertise and institutional capacity building to various national institutions in Armenia to address such threats, and will support a horizontal, whole-of-government approach.

In addition, the mission will provide practical, operational advice and establish a dedicated project cell to implement targeted actions covered by its mandate, in close cooperation with international partners.
