## **CHINA CONDEMNS EXPANDED US RESTRICTIONS ON ROBOTS, POWER INVERTERS AS PROTECTIONIST**

-

29.07.2026

---

Anadolu Agency (29 July 2026)

Beijing on Wednesday condemned new US restrictions on imports of advanced robotic devices and connected power inverters, accusing Washington of using national security as a pretext to suppress Chinese technology and pursue protectionism.

Foreign Ministry spokesperson Mao Ning said the measures would do little to strengthen US competitiveness.

Protectionism will not boost US competitiveness and will only harm the interests of US businesses and consumers, Mao told a regular news briefing, according to the state-run Global Times newspaper.
