
TÜRKİYE, ARMENIA MOVE CLOSER TO RESTORATION OF HISTORIC ANI BRIDGE

-

26.10.2026

Daily Sabah (25 October 2026)

Türkiye and Armenia are inching closer toward a restoration of a historic Ani Bridge, which would mark a major milestone in the normalization process between the two countries.

Transport and Infrastructure Minister Abdulkadir Uraloğlu announced on Sunday that they have recently completed the tender process for the reconstruction of the Ani Bridge, located on the Türkiye-Armenia border.

The bridge is planned to be jointly restored by Türkiye and Armenia under a deal signed by representatives of the two countries earlier in May.
