
SPAIN MPS BACK AMNESTY LAW FOR CATALAN SEPARATISTS

-

15.03.2024

BBC News (14 March 2024)

Spain's Congress has approved a controversial amnesty law that seeks to benefit nationalists facing legal action for separatist activity in the north-eastern region of Catalonia.

The law, a revised version of a bill rejected in January, received 178 votes in the 350-seat chamber.

The amnesty aims to remove pending legal action against people accused of separatist activity, mainly stemming from a 2017 Catalan bid for secession.
