Asbarez (15 July 2024)

Armenia should open an extraterritorial corridor connecting Azerbaijan to its Nakhichevan exclave in order to make peace with Baku, Turkish President Recep Tayyip Erdogan insisted over the weekend.

Erdogan also indicated that the opening of the Turkish-Armenian border is conditional on such a peace deal.

We hope that Azerbaijan and Armenia will achieve lasting peace which Turkey wholeheartedly supports, he reportedly told journalists. The opening of the Zangezur corridor is the final step of this agreement. We want positive decisions along this path to be made without delay. There are now positive signals coming from the region, and we hope that they will eventually bring good news.
