India's Defense Minister Rajnath Singh and his Russian counterpart Andrey Belousov on Thursday discussed bilateral cooperation on defense and "niche technologies" in New Delhi, according to a statement from the Indian Defense Ministry.

Belousov and Singh co-chaired the 22nd session of the India-Russia Inter-Governmental Commission on Military and Technical Cooperation.

The meeting comes as Russian President Vladimir Putin arrived in New Delhi late Thursday to co-chair the 23rd annual India-Russia summit with Indian Prime Minister Narendra Modi on Friday.
