Is Bosnia and Herzegovina really on the verge of losing almost one billion euros from the European Growth Plan, or is it a false narrative, as BiH Finance Minister Srđan Amidžić claims? While new warnings are coming from Brussels that there is no money without reforms, domestic politicians are shifting the responsibility to each other.

Almost a billion euros for Bosnia and Herzegovina or a lost opportunity? New warning from the European Union – time is running out. But also the message – without reforms there is no money.

Bosnia and Herzegovina needs to sign the Loan Agreement and the Agreement on the Instrument for Reforms and Growth, and fulfill the reform steps foreseen in the Reform Agenda. If it does not do so, it risks losing almost one billion euros allocated to it as part of the Growth Plan, stated the Delegation of the European Union in Bosnia and Herzegovina.
